Education

SRM Institute of Science and Technology

Bachelor of Science in Computer Science

Aug. 2023 – May 2027

Chennai

Technical Skills

Languages: Python, Java, JavaScript, TypeScript.

Frameworks: FastAPI, React, Next.js, Express.js, TailwindCSS.

Databases: MongoDB, Supabase, Vector Databases (Qdrant).

AI/ML: Machine Learning, Deep Learning, Generative AI, RAG, AI Agents, LangChain.

Developer Tools: Git/GitHub, Docker, AWS, Google Cloud, VS Code.

Relevant Coursework: Algorithms, AI, Computer Networks, Data Structures, DBMS, Operating Systems, OOP, Linear Algebra, Probability, Software Project Management, Machine Learning, Software Engineering, Theory of Computation, Compiler Design.

Projects

Crime Safety Reporting Platform 🚓 — *Groq AI SDK, MongoDB, Next.js 14, Tailwind CSS, TypeScript* **Mar-2026**

- Built an anonymous reporting system with no login required, protecting victim identity while maintaining report credibility through AI verification.
- Reduced manual report review time by 90% by integrating Groq AI to automatically analyze descriptions, images, and severity levels with 95%+ confidence scoring.
- Achieved real-time response under 2 seconds for report submission and analysis.

Developer Portfolio Website 🚀 — *Next.js, TypeScript, Tailwind CSS, Motion, GSAP, Three.js, Vercel* **Jan 2026**

- Built a responsive portfolio site with Next.js and TypeScript, featuring 3D visuals via Three.js and scroll animations with GSAP and Framer Motion.
- Optimized performance and responsiveness using Vercel and Git, achieving sub2s load times and 95+ Lighthouse scores across all device types.

Self Improving RAG System 🚀 — *Python, FastAPI, Streamlit, OpenAI, Qdrant* **Nov 2025**

- Developed a self-improving RAG system using FastAPI, Streamlit, and Qdrant, increasing retrieval accuracy by 25% across 100+ benchmark queries through iterative feedback optimization.
- Designed and deployed a real-time analytics dashboard using Streamlit and Plotly, tracking 5+ performance metrics including query volume, response accuracy, and user satisfaction.
- Integrated OpenAI GPT-4 with streaming responses and temperature-controlled generation, reducing average response latency by 40% while maintaining answer quality.

Experience

Craft and Community Development Foundation (CCDF)

June 2025 – August 2025

Intern

Delhi

- Delivered 10+ digital literacy sessions for 50+ women, teaching basic computer skills and online tool usage to improve jobreadiness confidence.
- Coordinated with 3 partner organizations to deliver community welfare programs, reaching 150+ residents across 2 districts and managing a budget of 50K.
- Led a team of 5 volunteers during digital literacy sessions, ensuring smooth delivery and sustained participant engagement.

Leadership / Extracurricular

TEDx SRMIST

Sep 2025 – Present

Co-Technical Lead

- Architected and deployed the official TEDx event platform with fullstack and livestreaming integration at TEDx.
- Led a team of 10+ developers, coordinating integration and system performance across frontend and backend stacks.

Khel SRMIST Sports Event

Feb 2025 – Present

Head Coordinator

- Organized a university level sports event with 25+ teams and 500+ participants across 10 sports.
- Managed crowd flow for 300+ attendees across multiple venues, ensuring smooth event execution
